

# Tighes Hill Public School

## Works notification | 21 November 2025

Dear staff, parents, carers and neighbours,

The Heritage Stonework Restoration Program looks after historic school buildings across the state. Under Section 170 of the *Heritage Act 1977*, we must identify, protect and manage heritage school buildings in our care.

You will start seeing some changes around the school as we prepare for the heritage restoration to Building B, which contains the library and 2 Kindergarten classrooms.

The construction, or work, site will be established during the summer school holidays. Upon your return to school in January and February, you will see scaffolding and fencing which will wrap around Building B to ensure the work site is separated from the rest of the school.

Work hours are between 7 am and 6 pm Monday to Friday, and 8 am and 1 pm on Saturday, in line with NSW Environment Protection Authority guidelines.

Some small trees, plants and shrubs on the northern side (facing Elizabeth Street) of Building B will be removed over the summer. While we do our best to preserve the natural environment, these plants have been assessed by an independent arborist as needing to be removed.

### Classroom locations

Mrs Dickson's KH Kindergarten class has already relocated to the refurbished community room in Building A and settled in nicely. Mrs Holcroft's KH class has moved to the demountable. The newly refurbished space (what was previously the art cave) will now house the library and programs that are run at the school. The upgraded art cave will benefit the school for many years to come.

**Upgraded space for library and programs**

Before: art cave interior

After: art cave interior

Before: art cave exterior

After: upgraded art cave, with new doors and windows put in

## Site plan

A site establishment compound is a temporary facility on a construction site which may contain offices, materials and equipment.

The compound will be located in the top right of the map, marked in yellow. The blue rectangles in the compound represent amenities. Deliveries will be left in the car park marked by the yellow rectangle in the bottom left of the map. Materials will be transported outside of school hours to minimise disruption to teaching and learning.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

Thank you for your cooperation during this important work.
