

Main Arm Upper Public School

Works notification | 28 May 2025

Dear staff, parents, and carers,

Following the works notification [earlier this term](#) regarding drinking water quality test results for Main Arm Upper Public School, remediation work has now been completed by a qualified and accredited tradesperson.

Re-testing of the affected tap outlets by an independent hygienist has confirmed the results meet the requirements of the [Australian Drinking Water Guidelines](#).

Access to the following tap outlets has now been restored:

- tanks 1 and 2 located south of Building A
- the tap in the canteen sink
- the chiller bubbler in Building F
- the bubblers in Building A
- the taps in the sick bay and staff kitchen in Building D
- the taps in the 2 demountable buildings.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
