Investing in our schools

As part of the NSW Government's plan to rebuild public education, the NSW Budget is delivering \$2.1 billion for new and upgraded schools in regional NSW. This targeted investment will ensure growing communities get access to a world class public education.

Welcome to your upgraded science facility

We are excited that the newly upgraded science facility in Building F for Trundle Central School is complete and all areas are open for use.

This project delivered:

Upgraded science lab, preparation room, storeroom and painting

Replaced and repositioned work benches in science lab

Upgraded gas and electrical lines

Replaced vinyl floor covering

Thank you

Thank you for your patience during the upgrade of the science facility at Trundle Central School. Your support and cooperation have been invaluable and made it possible for us to deliver this new facility for students and staff.

Message from your principal

Welcome to our school.

It is a privilege to lead our school at such an important moment in its history. The completion of our upgraded science facility, our first major investment in this space in more than 40 years, marks a significant milestone for our entire community.

Our staff and students have built a strong legacy of learning over many decades, and this new facility builds on that foundation. It provides a modern, purpose-built environment that supports high-quality teaching and learning, and creates new opportunities for students to explore, question and discover. We are excited by what this means for the future of science education at our school.

We believe that education opens doors to opportunity, and we remain committed to working in partnership with our community to ensure every student is challenged and supported to reach their full potential in a nurturing and inclusive environment.

As we begin this exciting adventure together, I invite you to actively engage in the life of our school and your child's educational journey. We understand the importance of collaboration between home and school, and we encourage open communication to ensure the success and wellbeing of every child. I am confident that with your support, dedication, and our collective commitment to excellence, our school will ignite a love of learning in all children and set them up for future success.

Mr John Southon

School Principal
