

Ulong Public School

Works notification | 31 January 2023

Dear staff and parents/carers,

During the school holidays, the installation of air conditioning to the Ulong Public School library included working with asbestos containing material in the wall and ceiling.

The work took place on Monday 16 January 2023. Safety measures and monitoring were in place and the area remained out of bounds to any visitors to the school until the removal and associated maintenance work was completed.

This area was remediated in accordance with SafeWork NSW regulations and the Department of Education's Asbestos Management Plan. All work was completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Testing was completed to ensure the area has been fully remediated, the school has received a clearance certificate and the area has reopened to students and staff.

The health, safety, and wellbeing of the school and local community is our highest priority.
