Urbenville Public School
Works notification | 30 October 2025

Dear staff, parents and carers,

Further to the works notification from 19 September 2025 regarding the drinking water quality test results for Urbenville Public School, remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the impacted tap outlet by an independent hygienist has returned results which meet the requirements of the Australian Drinking Water Guidelines.

Access to the bubblers on the eastern side of Building C and the tap outlets of the staffroom kitchen sink in the Building D have been restored and can be used again by students and staff.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.

Did you know?

Teachers at Urbenville Public School spend 30% more one-on-one classroom time with students compared to other primary schools in NSW due to our low student-teacher ratios. This means more individualised teaching leading to better outcomes for our students.
