Wakool Burraboi Public School

Works notification | 8 August 2025

Dear staff, parents and carers,

On the morning of Wednesday 6 August 2025, a member of staff noticed a crack in the green panel outside a classroom in Building R at Wakool Burraboi Public School.

The green panel is known to contain bonded asbestos as per the schools asbestos register, and the area was cordoned off, with a contractor covering the crack with adhesive tape.

The classroom remains in use as the panel is on the outside of the building.

NSW Health explains that “living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged”.

Work to remove the damaged panel and remediate the area is scheduled for Saturday 16 August 2025.

All work involving asbestos-containing materials will take place outside of school hours.

All work will be done in accordance with work health and safety laws and the NSW Department of Education’s Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors.

The area will be inspected by the independent hygienist to confirm it has been fully remediated, and a clearance certificate will be issued before the area is reopened.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
