

Walgett Community College Primary School

Project update | September 2026

Image caption: Front of Walgett Community College Primary School

Dear staff, parents and carers,

We are rebuilding the Walgett Community College Primary School Hall and Biraleegal Goondi Preschool after they were damaged by a fire in mid-2023.

Progress summary

Since our last update in [June 2026](#), work on this project has continued behind the scenes as we get ready for construction to start. We're pleased to share that we've received approval to proceed.

Next steps

With this approval in place, the project is moving into the construction phase. Our Asset Management team are now working with the appointed contractor Baseline Projects, to finalise prestart documentation.

Once this is complete, site establishment activities such as temporary fencing and hoarding will start. We'll keep the school community updated as the project moves forward and let you know more about construction timing once it's confirmed.

Managing construction

Construction works work hours are between 7 am and 6 pm Monday to Friday, and 8 am and 1 pm on Saturday, in line with NSW Environment Protection Authority guidelines.

There will be increased construction activity on **Neilly Lane and Peel Street** during the construction works.

The safety of the local community is our highest priority. For more information about how the department manages construction impacts please visit our webpage at edu.nsw.link/ConstructionImpacts.

More information

We will keep the community updated as this project progresses. You can find more information at [Walgett Community College - Primary School](#). If you have any questions about this project, you can contact School Infrastructure during business hours on the contact details below.
