

Warialda Public School

Works notification

11 November 2022

During inspections at Warialda Public School, asbestos containing material was found in the ceiling in the canteen. The material has been confirmed as bonded asbestos which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

We are following all the advice and protocols of asbestos removalists, assessors and other experts.

Work will take place on Saturday 19 November 2022 to remove the material. All asbestos containing material will be removed outside of school hours and in accordance with the advice of the independent hygienist.

The area will be cordoned off before works start, and safety measures and monitoring put in place. It will remain out of bounds to students and staff until the removal and associated maintenance work is completed.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure the area has been fully remediated. The construction contractor will receive a clearance certificate, following remediation.

The health, safety, and wellbeing of the school and the local community is our highest priority and we will continue to keep the community updated.

Thank you for your cooperation during this important work.
