RE: Request for contact details – Fence repair and replacement works

To the neighbours of Willawarrin Public School,

The NSW Department of Education is planning works to repair and replace sections of the boundary fencing shared with properties adjoining **Willawarrin Public School**.

We are writing to you as a neighbouring property owner to provide some initial information about the proposed works and to establish contact with you before the works are scheduled.

Proposed fencing works

The existing boundary fencing is in an unsafe and unstable condition and requires replacement to improve the safety and security of the school site.

The proposed works include:

- **For the seven (7) properties backing onto the southeast corner of the school:** replacement of the existing timber fencing with a new **1.8-metre-high timber paling fence**.
- **For the surrounding farmland:** replacement of the existing wire fencing with new **2.1-metre-high corrugated mesh fencing**.

The NSW Department of Education will cover the cost of the fencing works. **Neighbouring property owners will not be required to make a financial contribution.**

The department can fence off school properties as indicated in the Inclosed Lands Protection Act 1901 (ILP Act). Willawarrin Public School is 'inclosed land' for the purposes of the ILP Act.

We would like to hear from you

Before progressing the works, our team would like to speak with you about the proposed fencing and, where required, seek your permission to temporarily access your property to undertake the works with you in advance to minimise disruption.

To help us establish contact and discuss the proposed works with you, please provide your phone number or email address by contacting our team on **1300 482 651 or emailing schoolinfrastructure@det.nsw.edu.au by 5pm on 6 October 2026.** Please note our community phone and email are staffed from Monday to Friday between 9 am and 5 pm.

Following consideration of feedback received and discussions with affected neighbours, the Department will confirm the next steps and provide further information about the timing of the works.

NSW GOVERNMENT

We understand that changes to a shared boundary fence may affect you and appreciate the importance of maintaining positive relationships with our neighbours. We are committed to working with you to minimise disruption while supporting the safety and security of students, staff and the wider community.

Thank you for your cooperation. We look forward to speaking with you about the proposed works.
