

NSW Department of Education  
Windellama Public School  
Works notification | 31 May 2024

Dear staff and parents/carers,

Drinking water quality testing was recently conducted at Windellama Public School as part of our routine water testing program.

Findings have detected some bacteria in samples collected from the north and south bubblers in Building B, the canteen sink in Building C and kitchen sink in Building G.

As a precautionary safety measure, access has been restricted to the tap and signage has been installed to remind students and staff not to access the outlet. We are working with an independent hygienist to undertake any remediation work required.

All work will be carried out by qualified contractors, and we will undertake additional testing at the school following the work to ensure the water is safe for use. We will provide an update once we have confirmation of the details of this work.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
