

# Woolbrook Public School

## Works notification | 18 December 2025

Dear staff, parents, and carers,

We recently conducted drinking water quality testing at Woolbrook Public School as part of our routine testing program.

This biannual routine testing was completed on Thursday 20 November 2025. The results, received on Monday 15 December 2025 identified contamination in the school's tank water supply.

As a safety precaution, access to the affected area has been restricted. Signage is in place to remind students and staff not to use these outlets. We are coordinating with your school to see if bottled water and hand sanitiser is required for staff and students.

Testing confirmed the presence of E-coli in the following locations:

- practical activities area sink tap in Building A
- sink tap in boy's toilets in Building B.

Please be advised no other drinking water outlets are affected and therefore they can continue to be used.

Qualified and licensed contractor plumbers will perform all repairs, and additional water testing will be done afterwards to ensure the water is safe by our independent hygienist.

The health, safety, and wellbeing of our school community is our highest priority. If you have any health concerns, please consult a healthcare professional or contact the [your local NSW Health Public Health Unit](#) on 1300 066 055.

If you have any questions about this, please contact the NSW Department of Education during business hours on the details below. Please note the Department will be closed from Wednesday 24 December 2025 at 12 pm to Monday 12 January 2026 at 9 am, inclusive, in line with the NSW Government shut down period.

You can continue to contact us during this time, and we will get back to you after we return or visit our [website](#) for further information.

Thank you for your understanding and cooperation during this important work.
