Woolbrook Public School
Works notification | 5 May 2025

Dear staff, parents and carers,

Further to the works notification issued on 5 March 2025 regarding the drinking water quality test results for Woolbrook Public School, remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the affected tap outlet in the Building C art room by an independent hygienist has returned results which meet the requirements of the Australian Drinking Water Guidelines.

Access to the tap outlet has been restored and can continue to be used by students and staff.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
