

Wyong Public School

Works notification | 13 May 2025

Dear staff, parents and carers,

We will be refurbishing the student toilets in a general classroom block (Building E) at Wyong Public School.

To prepare for this work, we will be removing and replacing the ceiling and partition walls in the toilets which are known to contain bonded asbestos as listed on the school's asbestos register. NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Work involving asbestos-containing materials will be completed outside of school hours on Saturday 31 May 2025.

During the asbestos removal work there will be air monitoring, temporary fencing, signage and workers wearing personal protective equipment at the school.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by an independent hygienist.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
