

Yetman Public School

Works notification | 10 April 2025

Dear staff, parents and carers,

Further to the [works notification we issued on 21 February 2025](#) regarding the drinking water quality test results for Yetman Public School, remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the affected tap outlets by an independent hygienist has returned results which meet the requirements of the Australian Drinking Water Guidelines.

Access has been restored and the tap outlets can now be used by students and staff.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
