

# Fairfield Heights Public School

## Works notification | 9 May 2025

Dear staff, parents and carers,

We removed 7 demountables at Fairfield Heights Public School during the autumn holidays.

During this work we removed bonded asbestos in the eaves of the demountables, a location identified in the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

All work was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures including air monitoring were in place while work was done. All work was completed by licensed asbestos contractors and inspected by independent hygienists.

The area was inspected by the independent hygienist to confirm it was fully remediated, and a clearance certificate was issued allowing the area to be reopened.

The area remains out of bounds to allow for grass to grow. We anticipate we will be reopening the area, providing more grassed playing area for students from Monday 19 May 2025, weather and other conditions permitting,

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
