

Cronulla South Public School

Works notification 14 March 2024

Dear staff, parents and carers,

On Friday 8 March 2024, after the recent warm and wet weather conditions, mould was detected in the principal's office and throughout the Administration Building at Cronulla South Public School. The building has been cordoned off and an independent hygienist engaged for testing and remediation advice.

Following recommendations from the hygienist, staff offices have been relocated to other rooms in the school while the affected areas in the Administration Building are remediated.

Remediation will be scheduled to clean the building and remove any impacted materials in affected areas. Any water leaks that may be contributing to moisture build up will also be repaired.

All work involving hazardous materials will take place outside of school hours, with additional safety measures and air monitoring in place while work is being done. All inspections and remediation works will be conducted in accordance with recommendations from the independent occupational hygienist. Use and access to the building will be restricted until a clearance certificate is received.

The health, safety, and wellbeing of the school and the local community is our highest priority. We will keep the community updated.

Thank you for your cooperation during this important work.
