

# Cronulla South Public School

## Works notification

20 September 2022

Dear staff and parents/carers,

Upcoming maintenance works in several rooms of Block E at Cronulla South High School will involve working with asbestos containing vinyl floor tiles.

The material is bonded asbestos, which means it is attached to the vinyl and cannot be crumbled by light pressure.

Work to remove the vinyl tiles will take place between Monday 26 September and Friday 30 September 2022. All asbestos containing material will be removed outside of school hours in the school holidays.

There will be vacation or out of hours care onsite, but they are aware of the works and will be moved to another area of the school site.

The area will be cordoned off before works start, and safety measures and monitoring put in place. It will remain out of bounds to students and staff until the removal and associated maintenance work is completed. Air monitoring will also be in place during this work to ensure the safety of the school community.

The area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

---
