Upper Coopers Creek Public School
Works notification | 3 July 2025

Dear staff, parents and carers,

Further to the works notification from Autumn 2025 regarding the drinking water quality test results for Upper Coopers Creek Public School, remediation work has been completed by a qualified and accredited tradesperson following advice provided by an independent hygienist.

Re-testing of the affected tap outlets by an independent hygienist has returned results which meet the requirements of the Australian Drinking Water Guidelines.

Access to the tap outlets in the staff change room sink and shower in Building B has been restored and can be used again by staff.

The health and wellbeing of students, staff and the local community is our highest priority.

Thank you for your cooperation during this important work.
