

# Wiripaang Public School Project update | May 2026

Image caption: artist impression showing external view of the hall (subject to change)

## Investing in our schools

The \$284.3 million [Australian Government Schools Upgrade Fund](#) is delivering grants to improve school facilities across the country.

These grants are designed to help schools and their students get back on track after disruptions caused by COVID-19. Public Schools in NSW have a \$68 million share of the fund for infrastructure projects and facility improvements. As part of this investment, Wiripaang Public School is receiving a new hall to be located on the northwestern side of the school, between the covered outdoor learning area (COLA), canteen (Building F) and library (Building E).

## Progress update

Further to the [February 2026 project update](#), we are pleased to announce that construction of the new hall is progressing well and on track to be finished by mid-2026.

Earlier this year we completed foundational work, including:

- installing underground electrical and plumbing infrastructure
- constructing a retaining wall
- pouring concrete slab foundations.

## Next steps

Work in Term 2 and the upcoming winter holidays will include:

- constructing the hall building including the roof
- installing internal and external wall and ceiling linings
- internal fit out including the stage and steps
- external landscaping surrounding the hall.

The project area will remain fenced off within a construction zone while work is underway. Access to the nearby canteen and library will be available for use as usual.

Phone: 1300 482 651  
[schoolinfrastructure.nsw.gov.au](http://schoolinfrastructure.nsw.gov.au)

Access to the adjacent COLA will be temporarily unavailable to enable construction, plumbing and electrical works. Alternative shared outdoor areas are available in the centre quadrangle during this time.

### What to expect during construction

Work hours will be 7 am to 6 pm Monday to Friday and 8 am to 1 pm on Saturdays. No work will take place on Sundays or public holidays.

Contractor vehicles will use the Hughes Street access road.

There may be some noise while work is taking place.

We are committed to managing noise in line with regulatory requirements and will make every effort to ensure works are carried out safely and efficiently with minimal disruption to the community.
