

Wiripaang Public School

Works notification | 26 July 2023

Dear staff and parents/carers,

As part of detailed planning for roof replacement works at Wiripaang Public School, we are inspecting the roof cavity of the Staff Facilities Building (Building I).

The roof cavity of Building I will be inspected by an independent occupational hygienist on Friday 11 August 2023, outside school hours, to confirm if lead or asbestos material are present.

The affected areas are located within the roof cavities, sealed off and therefore inaccessible to students, staff and visitors.

Safety measures, including air monitoring, will be in place and all work zones will be out of bounds while work is carried out.

All work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The inspection has been scheduled in consultation with your school leadership to minimise disruption to teaching and learning.

Following the inspection, planning will continue for any remediation required before the roof replacement works start. We will keep the community informed. Thank you for your cooperation during this important work.
