

Hazelbrook Public School

Works notification | 2 July 2025

Dear staff, parents and carers,

As part of planned maintenance in Building A, we have replaced corridor walls at Hazelbrook Public School.

This work involved removing bonded asbestos-containing material as listed on the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Work to replace the walls took place outside of school hours on 21 and 22 June 2025.

Safety measures were in place during the work including air monitoring, signage and workers wearing personal protective equipment.

All work was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed asbestos contractors and inspected by an independent hygienist before clearance was provided to allow ongoing access.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
