

# Turramurra Public School

Works notification | 7 December 2022

Dear staff and parents/carers,

Upcoming maintenance works are planned to upgrade the toilets in Block A at Turramurra Public School. This work will involve working with asbestos containing material in the ceiling and walls of the toilets.

The material is bonded asbestos, which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure. Please be assured that the toilets are currently safe for use.

The area will be cordoned off from Saturday 10 December 2022 and remain out of bounds to students and staff until the removal and associated maintenance work is completed.

All asbestos containing material will be removed outside of school hours, in accordance with the advice of the independent hygienist and monitoring will be in place. Work will take place on Saturday 10 December 2022 and Sunday 11 December 2022 to remove the asbestos containing material.

The rest of the work required to upgrade the toilets will take place during the summer school holidays between Wednesday 21 December 2022 and Saturday 25 February 2023.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure it has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.
