

Mount Colah Public School

Completion pack – September 2025

Outside view of new aluminium windows

Welcome to your improved infrastructure

We are thrilled to announce that timber windows in 3 buildings have been replaced with new aluminium windows for Mount Colah Public School and are now in working order for use.

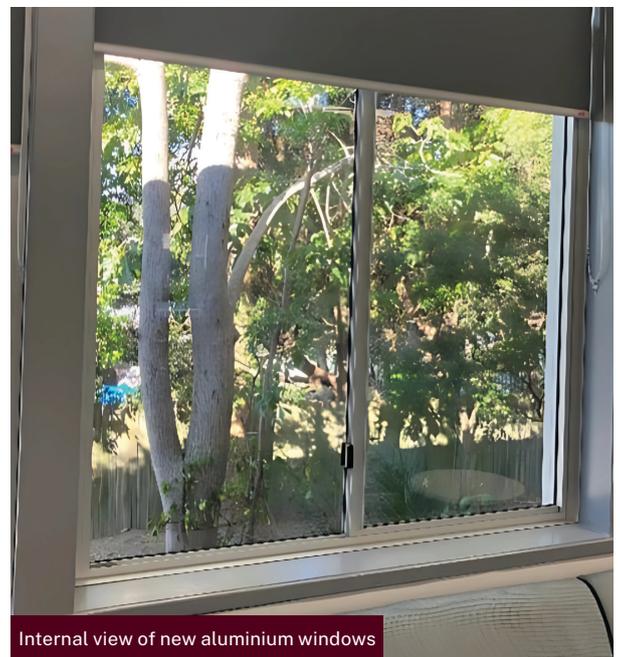

This project delivered:

new aluminium sliding windows with toughened glass

improved insulation from cool and hot weather for classrooms in buildings B and C, and the Administration Building

Internal view of new aluminium windows

A message from your principal

We are excited to have new aluminium windows for our school community.

The new windows are even more durable and energy efficient than the former ones. They will provide improved insulation and resistance to weather elements, ensuring that windows maintain their functionality and appearance for many years to come. Especially during summer and winter, when the weather is particularly hotter and cooler this will provide a more comfortable environment for students and teachers in buildings B and C, and the Administration Building.

I would like to thank our school community for their patience during construction, while the windows were replaced.

Clare Davidson

Relieving Principal (until Term 3, 2025)
Mount Colah Public School

Thank you

Thank you for your patience during the removal and construction. We feel privileged to have delivered this project for the Mount Colah Public School community. Your support has made it possible for us to deliver new facilities for students and staff.
