

Mount Colah Public School

Works notification | September 2026

Dear neighbour,

Mount Colah Public School is home to more than 400 students and staff, and their safety is our priority.

What we are doing

As part of our ongoing work to improve safety at the school, we will be conducting work to secure all direct access gates along the school's boundary fence.

This means that if you have a gate in your boundary fence that opens onto the school site, you will no longer be able to use it to enter the school.

All work will be conducted entirely on the school's side of the boundary during the week of 28 September 2026.

Why we are doing this

At all times, schools must keep their grounds safe and secure for students, staff and approved visitors. Securing gates is one part of how we meet that responsibility. Effective fencing also plays a role in protecting schools from loss and damage and helps to ensure school students and local communities have access to safer facilities and playing fields through programs like [Share Our Space](#) and [shared use arrangements](#).

If you currently access the school grounds outside school hours or should you have any questions about this work, please contact the NSW Department of Education using the details below.

We appreciate your support in keeping our school community safe.

Thank you for your attention and understanding.
