

# Windale Public School

Works notification | 4 December 2023

Dear staff and parents/carers,

Following up from the notification we provided 14 August 2023, remediation was scheduled for the ceiling in the reception foyer in the Administration Building at Windale Public School.

The ceiling sheeting, known to contain asbestos in the ceiling panels as per the school's asbestos register, was removed and replaced.

The reception foyer was cleared to continue to be used following the work in August to cover the faulty light and secure the ceiling.

Work to replace the ceiling sheeting took place on Saturday 2 December 2023.

The area was cordoned off just before the work, with additional safety measures and monitoring in place.

All work involving asbestos containing materials takes place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work was done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The area was inspected by an independent hygienist to confirm it was fully remediated, and the school received a clearance certificate before being reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
