

Marks Point Public School

Works notification | 8 May 2025

Dear staff, parents and carers,

We are conducting planned maintenance and refurbishment in 2 classrooms in Building G (a general classroom block) at Marks Point Public School.

This work includes removing and replacing wall panels known to contain bonded asbestos as listed on the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Work to replace the wall panels is planned to take place on Saturday 17 May 2025. The classrooms have remained in use as the wall panels are undisturbed and in good condition.

Safety measures including air monitoring, temporary fencing, signage and workers wearing personal protective equipment will be in place during the work.

Once the work is done an independent hygienist will provide clearance to continue the planned maintenance, which will require the 2 classrooms to be closed. Alternative spaces at the school are available for staff and students during these works. Classroom refurbishments are expected to be finished mid-2025.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by an independent hygienist.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
