

Belmont North Public School

Works notification | 2 August 2023

Dear staff and parents/carers,

As part of detailed planning for roof replacement works at Belmont North Public School, we are inspecting the roof cavities of Buildings A (Administration) and B.

The rooms below, including the foyer in the Administration Building and a classroom in Building B are being safely used at present as the roof cavities are sealed and inaccessible to students, staff, and visitors.

The roof cavities will be inspected by an independent occupational hygienist on Monday 21 August 2023, outside school hours. Safety measures, including air monitoring, will be in place during the inspections and all work zones will be out of bounds while work is carried out.

All work will be done in accordance with SafeWork NSW regulations. All work will be completed by licensed and accredited contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

Following the inspection, planning will continue for any remediation that may be required before the roof replacement works start. We will keep the community informed.

Thank you for your cooperation during this important work.
