

Finley Public School

Works notification | 27 May 2025

Dear parents, carers and staff,

We will be refurbishing the student toilets in Building G at Finley Public School.

To prepare for this work, we will be removing and replacing partitions in the toilets which are known to contain bonded asbestos as listed on the school's asbestos register. NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Work involving asbestos-containing materials will be completed outside of school hours on Saturday 7 June 2025.

During the asbestos removal work there will be air monitoring, signage and workers wearing personal protective equipment at the school.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and inspected by an independent hygienist.

The toilets in Building G will be inspected by the independent hygienist to confirm they have been fully remediated, and a clearance certificate will be issued before the work continues to refurbish the toilets. We anticipate the toilets will be finished and reopened to students by Term 3 2025. Students can use alternative toilet facilities across the school.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
