

# Manly Village Public School

## School holiday works notification – Autumn | 2025

Dear staff, parents, carers and neighbours,

The school holidays are the ideal time to complete maintenance and project work across the state without disrupting learning.

### Planned work over the Autumn School Holidays

As part of planned maintenance, we are renewing the asphalt playground and sports court at Manly Village Public School.

We will be working at your school during the Autumn School Holidays – from the end of the school day on Friday 11 April and into Term 2 2025. Works are due to be finished by mid 2025. This work will not disrupt learning and teaching at the school.

This work will include removing and replacing the existing playground and sports courts surfaces within an area identified in the school's Site-Specific Asbestos Management Plan (SSAMP). This area is suspected to contain in-ground, bonded asbestos fragments, as listed in the school's asbestos register, and to remediate, the ground surface will be replaced.

NSW Health explains that 'living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged'.

The vacation care program will be open as usual.

During the works there will be air monitoring, temporary fencing, signage and workers wearing personal protective equipment at the school.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed asbestos contractors and monitored by an independent hygienist.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
