

Villawood East Public School

Works notification | 20 November 2025

Dear staff, parents and carers,

We are refurbishing the Building M toilets to provide upgraded amenities and improve facilities for students.

As part of these works we will be replacing the ceiling linings in the toilets, which contain bonded asbestos as per the school's asbestos management plan.

The asbestos will be removed on Saturday 6 December 2025. All work involving asbestos-containing materials will take place outside of school hours.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures including air monitoring will be in place while work is being done. All work will be completed by licensed asbestos contractors.

The area will be inspected by an independent hygienist to confirm it has been fully remediated, and a clearance certificate will be issued before refurbishment work continues.

The health, safety, and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
