

Villawood East Public School

Works notification | 22 November 2024

Dear parents, carers and staff,

Suspected mould was found in 2 Building G classroom storerooms at Villawood East Public School Wednesday 20 November 2024.

As a precaution, both storerooms were locked the same day and made inaccessible.

Classes will remain in their usual location, although access will remain restricted until environmental cleaning takes place, outside of school hours, from Saturday (23 November) to Tuesday (26 November).

NSW Health advises that mould is present virtually everywhere, both indoors and outdoors, and is part of a group of very common organisms called fungi that also include mushrooms and yeast.

Further information can be found on the [NSW Health Mould Factsheet](#).

Appropriate safety measures will be in place while remediation takes place.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
