

Biraban Public School

Works notification | 27 August 2026

Dear staff,

We are removing old down pipes, in storage under the staffroom in Building B at Biraban Public School.

These pipes are known to contain bonded asbestos as listed on the School Asbestos Management Plan.

This area is not easily accessible, and signs are in place to remind staff not to enter this area while we arranged for an independent contractor to inspect the pipe and provide advice.

The pipes will be removed on Saturday 29 August 2026 and Sunday 30 August 2026.

All work will be completed by licensed asbestos contractors and inspected by independent hygienists with air monitoring in place.

If you have any questions about this work, please contact the NSW Department of Education using the details below.

Thank you for your understanding and support during this important work.
