

# Jannali East Public School

## Works notification | 20 January 2023

Dear staff and parents/carers,

During construction works as part of the Adventure Playground upgrade at Jannali East Public School, works will involve working with assumed bonded asbestos containing material in the soil in the bush playground next to the unused stormwater tank. We are following all the advice and protocols of independent asbestos hygienists and other experts.

Work will take place on Saturday 21 January 2023. All asbestos containing material will be removed in accordance with the advice of the independent hygienist.

The area is cordoned off within the construction site and separated by hoarding and a fence around the perimeter. Safety measures and monitoring will be put in place before remediation works start.

This area will be remediated in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The area will be inspected to ensure the area has been fully remediated. The construction contractor will receive a clearance certificate, following remediation.

The health, safety, and wellbeing of the school and the local community is our highest priority and we will continue to keep the community updated.

Thank you for your understanding during this important work.
