

Panania North Public School

Works notification | 2 March 2026

Dear parents, staff and carers,

During planned maintenance works on Wednesday 18 February 2026, a contractor found fragments of material suspected to contain bonded asbestos in the lower sports field near the playground at Panania North Public School. The area was immediately cordoned off by the contractor on site using temporary fencing.

The surrounding area of the playground is known on the School Asbestos Management Plan (SAMP).

An independent hygienist inspected the area on Friday 27 February 2026, to collect the fragments for testing. Sample test results will take a few days to be returned.

The area will remain fenced off until further advice is provided by an independent hygienist. The health, safety, and wellbeing of all members of our school and the local community are our highest priorities. We will keep the community updated.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
