

Peakhurst West Public School - swimming pool

Project update | July 2026

Investing in our community

The NSW Department of Education is reinvigorating the swimming pool facility located on the grounds of Peakhurst West Public School, including appointing Fit XP to upgrade and run the facility.

By upgrading and appointing an experienced operator to manage the pool, we can ensure its long-term viability and expand its use to individuals and families as well as local community groups and swim associations.

Progress update

Further to our [June 2026 project update](#), the first stage of refurbishment work has started and includes internal demolition of the concrete flooring, tiles, bathrooms, change rooms and pool surfaces. These activities are progressing well and on track to be finished in time for the pool to reopen in November 2026, ahead of the summer swimming season.

Further minor upgrades to equipment and the facilities will take place in early 2027 and are not expected to cause any disruption to pool users.

What to expect during construction

Work hours are between 7 am and 3 pm Monday to Friday, and 8 am and 1 pm on Saturday.

By late July you will start to see large machinery and trucks coming onsite.

There will be increased activity on Ogilvy Street while refurbishment works are underway. Please follow the directions of any temporary signs and traffic controllers when in place.
