

Peakhurst West Public School - swimming pool

Works notification | 16 September 2025

Dear staff, parents, carers and community members,

The NSW Department of Education is making important improvements to the Peakhurst West Public School swimming pool.

Upgrades to the pool facility

Further to our [works notification from 3 July 2025](#), roofing works were recently finished ahead of schedule.

We're making the pool easier and more comfortable for everyone to use by adding a new accessible bathroom. This important upgrade will improve convenience for all pool users and will also serve as a unisex option if either the male or female changerooms are closed for maintenance. The pool is also being thoroughly cleaned and pumps restored to make it ready for use.

These works are expected to be finished by late September.

If you have any questions about this work, please contact us during business hours using the details below.

Expression of Interest update

The department received a strong response to the Expression of Interest (EOI) for the pool's upgrade and operation. The next stage will be a select tender process, which will be open for a period of 4 weeks.

Should a suitable proposal be received, the successful applicant will be awarded a licence to upgrade and operate the pool.

Temporary reopening pending appointment of permanent operator

The pool will temporarily reopen for community use while the select tender process is underway.

We anticipate the pool to be available for community use from mid-late October 2025. Community groups interested in rebooking during the reopening can email asset.activations@det.nsw.edu.au.

Access during this time will be subject to the terms of the Community Use Agreement. Should a new operator be appointed and wish to start upgrade works, the department will provide the minimum notice period of 2 weeks under the agreement.

Future access arrangements will be determined by the successful operator's proposal and licence conditions, and existing community users will be transitioned by the new operator. We understand this creates uncertainty for current users. We are committed to keeping all community groups informed during this process and will provide as much notice as possible about any changes.

schoolinfrastructure.nsw.gov.au

The NSW Department of Education is committed to a fair and equitable tender process. We expect to announce a new operator ahead of the upcoming summer swimming season.

Thank you for your cooperation during this important work.
