

# Peakhurst West Public School swimming pool

## Works notification | 30 July 2025

Dear students, staff, parents, carers and community members,

We would like to provide an update on the swimming pool at Peakhurst West Public School.

Further to the [works notification issued on 3 July 2025](#), additional asbestos containing material was found in the eave linings in the roof of the swimming pool building.

The material is undisturbed bonded asbestos. NSW Health explains that “living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged”.

Work to remove the eave linings will take place on Saturday 2 August 2025 between 7 am and 5 pm.

All work will be done in accordance with work health and safety laws and the NSW Department of Education’s Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists.

Once the eaves are removed, an independent hygienist will issue a clearance certificate and work to replace the roof will continue.

If you have any questions about the roof replacement works, please contact School Infrastructure during business hours using the contact details below.

The health, safety and wellbeing of all members of our school and local community are our highest priorities.

Thank you for your cooperation during this important work.
