

Cringila Public School

Works notification

3 August 2021

Dear parents/carers,

Maintenance works at Cringila Public School to remove weeds and vegetation from the north western area of the school may involve working with bonded asbestos containing material.

This work is scheduled to be completed between Wednesday 4 August and Saturday 7 August 2021. We request that residents do not enter the work area behind their properties during this time as it is a controlled exclusion zone that may contain asbestos containing material. As a precaution, the area has been cordoned off and will remain out of bounds to students, staff and neighbours until work is completed.

The area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is re-opened. We will keep you informed if further material is found which requires removal.

A comprehensive COVID-19 Safety Plan will be in place for the site and the contractor will enforce strict compliance including no workers from the LGAs of concern with the exception of authorised workers allowed under the Public Health Order. Our construction sites will follow all current health guidelines, including a one person per 4sqm rule and all workers wearing masks for indoor and outdoor work.

Safety is the number one priority for School Infrastructure NSW and we are following all health advice in relation to construction sites.

Thank you for your cooperation during this important work.
