

Cringila Public School

Works notification | 15 December 2023

Dear residents,

We are undertaking grass and weed control at Cringila Public School. This work will take place on the school grounds in the fenced off remediation site near the northwest boundary. This work will involve working around material in the ground known to contain asbestos.

Work to slash and spray the area will take place in the Summer school holidays between **Monday 8 January 2024 and Monday 15 January 2024**. The area is currently fenced off, and safety measures and monitoring are in place under the advice of an independent hygienist.

Work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The area will be inspected after slashing and weed control, however it will remain out of bounds to anyone visiting the school site until the remediation work is finished.

Planned remediation work for this area is scheduled to begin in 2024.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

If you have any questions about the work, please contact us on the details below.
