

Lismore Heights Public School

Works notification | September 2026

Dear staff, parents, carers and neighbours,

We are pleased to be able to provide an update on the Building E upgrade at Lismore Heights Public School.

This project began in late 2024, and we know it is taking considerably longer than expected. Along the way we've faced significant and unforeseen setbacks that have added considerable time to the build.

We want to sincerely apologise for the extended timeframe and for the impact the uncertainty is having on our students, families and staff. We know waiting for clear answers isn't easy, and we are grateful for your patience.

Our students and staff took possession of the newly converted classrooms at the start of 2026, and they have put the rooms to good use throughout the year.

What remains is a smaller, final stage of work: the covered walkways, fire emergency stairs, and a small amount of internal fit-out. This is expected to be completed by late 2026.

We want to acknowledge the extraordinary patience our school community, staff and students have shown throughout. Once finished, Building E will provide a purpose-built, modern learning environment that our students deserve for years to come.

We will continue to keep the school and community informed as the project progresses.

Thank you for your understanding and support during this important work.
