

# Tuggerawong Public School

Works notification | 20 October 2023

Dear staff and parents/carers,

We are replacing wall sheeting in a classroom (room 5) in Building E at Tuggerawong Public School behind where an old wall heater was recently removed. This work will involve working with asbestos containing material located in the wall sheeting.

The classroom continues to be used as the wall sheeting is in good condition and the asbestos is undisturbed.

The room and building will be cordoned off during the works with additional safety measures and air monitoring put in place.

Work to remove wall sheeting will take place on Saturday 4 November 2023. All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and monitoring in place before the work starts.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The room will be inspected by an independent hygienist to confirm it has been fully remediated, and the school will receive a clearance certificate before it is reopened.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
