Telopea Public School

Works notification | 4 August 2026

Dear staff, parents, carers and neighbours,

An exciting refurbishment project will soon take place at Telopea Public School to upgrade the building K toilet block. The works will include:

- modern, fit-for-purpose bathrooms for students
- a new roof
- new window suites

Work will start shortly and be finished early in Term 4 2026.

Temporary toilet facilities will be in place during the works. These facilities are fully serviced, cleaned regularly and meet all required health and safety standards.

Asbestos removal

As part of this upgrade, external eave linings in this building (that are assumed to contain bonded asbestos), as listed on the School Asbestos Management Plan will be removed. Licensed asbestos contractors will remove them outside of school hours. An independent hygienist will inspect the area and issue a clearance certificate.

Thank you for your cooperation during this important work.
