

# Central Mangrove Public School

## Works notification | 23 May 2025

Dear staff, parents and carers,

The current severe weather has caused leaks which has resulted in water damage to the canteen at Central Mangrove Public School. During an inspection we have also identified mould on surfaces in the canteen.

From Friday 23 May 2025 the canteen will remain closed until repairs and cleaning can be completed. Any damaged cabinetry or wall linings will be replaced as required.

We expect the canteen may be closed for the remainder of Term 2. The school is looking into alternative arrangements for the canteen and will keep the community informed once more information becomes available.

The affected areas and surfaces will be environmentally cleaned and dried with fans, air scrubbers and dehumidifiers to prevent any potential mould from reoccurring.

All work involving mould will take place during school hours, with appropriate safety measures in place.

Please be aware of the preventative measures as advised by [NSW Health's mould factsheet](#) to help avoid mould growth and follow these steps as best you can.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your understanding during this time.
