

Marayong Public School

Works notification | 28 June 2023

Dear staff and parents/carers,

The Department of Education installed new and efficient LED lighting at Marayong Public School in April 2023.

During a review, we identified that the contractor used a method different to the established work practices for the program to install new LED fittings in staff toilets room in Building E.

We looked into whether this work may have impacted the ceilings in this area, which is suspected to contain asbestos.

Following the Department of Education's protocols on the management of asbestos in schools, the area was immediately isolated, and an independent occupational hygienist attended the site on 22 June 2023 to inspect the work and conduct testing.

Samples collected by the hygienist returned negative results for asbestos, and a clearance certificate has been issued to the school so the area can be reopened.

The health, safety, and wellbeing of the school and local community continues to be our highest priority.

Thank you for your understanding.
