

# Kotara South Public School

Works notification | 13 February 2024

Dear staff and parents/carers,

We are replacing ceiling panels and lighting in the toilets in Building I at Kotara South Public School.

This work will begin with removing known asbestos containing material within the ceilings of the boys' toilets.

Work to remove the existing asbestos containing ceiling sheets is scheduled for Saturday 24 February 2024, and following this the new ceiling and lighting will be installed.

The toilets remain in use until work starts as the material is undisturbed and in good condition.

All work involving asbestos containing materials will take place outside of school hours, with additional safety measures and air monitoring in place before the work starts.

Work will be done in accordance with work, health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies, and guidelines.

The contractor will receive a clearance certificate from an independent hygienist after the works are completed. The toilets are expected to re-open on Tuesday 27 February 2024 after the ceiling has been replaced.

The health, safety, and wellbeing of the school and local community is our highest priority, and we will continue to keep the community updated.

Thank you for your cooperation during this important work.
