

Parkes East Public School

School holiday works notification | June 2023

School Infrastructure NSW regularly inspects and maintains school infrastructure as part of a comprehensive and ongoing program to keep school assets in optimal condition and ensure the safety and wellbeing of our school community across more than 2,200 NSW schools.

The school holidays are the ideal time for some maintenance projects as it means work can take place without disrupting learning.

Planned maintenance over the holidays may involve working with hazardous materials such as asbestos or lead containing material. This is to notify you of this work.

Planned maintenance over the winter school holidays

We are replacing the eaves located on the western side of Building A and the northern side of Building C. This will involve working with asbestos materials located within the eaves. The buildings are being safely used as the eaves are in good condition and the asbestos remains undisturbed in the eaves.

Work to remove the material will take place **during the July school holidays, from the end of school on Friday 30 June to Monday 17 July 2023.**

The building areas will be cordoned off and additional safety and monitoring will be in place before work starts, under the advice of the independent occupational hygienist. The areas will remain out of bounds to anyone on site until the work is finished.

Work will be done in accordance with SafeWork NSW regulations and the NSW Department of Education's Asbestos Management Plan. All work will be completed by licensed and accredited asbestos contractors and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The buildings will be inspected to ensure they have been fully remediated and the school will receive a clearance certificate before they are reopened for next term.

The health, safety, and wellbeing of the school and the local community is our highest priority. Thank you for your cooperation during this important work.

If you have any questions about the work, please contact us on the details below.
