

# Fennell Bay Public School

## Works notification | 3 June 2024

Dear staff and parents/carers,

During a recent routine site inspection on 22 May 2024, mould was detected on the ceiling in the student toilets in Building C at Fennell Bay Public School.

The toilets were immediately isolated from students and staff, and students were redirected to use other toilets onsite. An independent hygienist was engaged to undertake testing and provide remediation advice.

Work to remediate the mould has been scheduled for Tuesday 4 June 2024. A specialist cleaning contractor will undertake an environmental clean of the toilets.

Following the work, an independent hygienist will inspect the toilets to ensure all affected areas have been fully remediated before they are re-opened.

All work involving hazardous materials will take place with additional safety measures and air monitoring put in place while work is being done. All inspections and remediation works will be conducted in accordance with recommendations from the independent hygienist.

The health, safety, and wellbeing of the school and local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.

Thank you for your cooperation during this important work.
