

# Gosford East Public School

## Works notification | 6 February 2025

Dear staff, parents and carers,

As part of regular maintenance, we have removed and replaced material in a locked electrical distribution cupboard in the administration block (Building A) at Gosford East Public School.

The electrical switchboard in this cupboard is known to contain friable asbestos as listed on the school's asbestos register. Friable asbestos can be crumbled, pulverised or reduced to a powder by hand pressure.

Work to remove and replace the electrical panel material took place outside of school hours on Saturday 1 February 2025.

All work involving asbestos-containing materials took place outside of school hours. All work was done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. All work was completed by licensed asbestos contractors and monitored by independent hygienists.

Following the work, an independent hygienist inspected the room and provided a clearance certificate.

The health, safety and wellbeing of the school and the local community is our highest priority.

If you have any questions about this work, please contact the NSW Department of Education on the details below.
