

Camden South Public School

Works notification | 29 June 2026

Dear staff, parents, carers and neighbours,

School holidays are the ideal time to undertake maintenance and project work across the state without disrupting learning.

Planned work over the upcoming holidays

We will be working at Camden South Public School during the winter holidays.

This period may include from the end of the school day on Friday 3 July 2026 up to the first day of Term 3 Tuesday 21 July 2026.

During this time, we will be replacing the entry awning, including associated doors, fascia and soffit lining in Building F.

These areas are known to have bonded asbestos-containing materials (ACM), as identified in the School's Asbestos Management Plan (SAMP).

In addition, excavation works will be undertaken in a section of the school grounds, including part of the oval area, where ACM has previously been found. No ACM has been confirmed within the current work area.

As a precaution, access will be restricted during these works, and excavation will be undertaken in accordance with asbestos management requirements. Independent hygienists will be onsite and will establish monitoring equipment around the work area to ensure appropriate safety controls remain in place throughout the works. Any unexpected ACM encountered during these works will be managed safely and appropriately.

These precautionary measures have been implemented due to the historical presence of asbestos-containing material in the surrounding area and to ensure any unexpected fragments encountered during the works can be managed safely and appropriately.

The section of the school grounds area will have access restricted to students, staff and school visitors while these works are being undertaken.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

We will keep the community updated. If you have any questions about these works, please contact the NSW Department of Education during business hours using the details below.

Thank you for your understanding during this important work.
