

Walters Road Public School

Works notification | 14 August 2025

Dear staff, parents, and carers,

We are repairing sub-floor structures including the brick piers underneath Building D at Walters Road Public School.

Part of the work involves removing bonded asbestos material located in this building's sub-floor area, as listed on the school's asbestos register.

NSW Health explains that "living or working with asbestos, or just being around it, is a low risk to your health as long as the asbestos is in good condition and not damaged".

Repair of brickwork and removal of asbestos material will take place over 2 consecutive weekends from Saturday 30 August to Sunday 7 September 2025.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan.

Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and inspected by independent hygienists who will provide a clearance certificate when work is finished.

The health, safety and wellbeing of all members of our school and the local community are our highest priorities.

Thank you for your cooperation during this important work.
